A voyage of discovery through four quarters

The Alte Pinakothek is only one of the eighteen museums in the Kunstareal

Out and about in Theresienstraße

At the Viktualienmarkt

Frauenkirche, Allianz Arena, Englischer Garten: Taking in one highlight after another is probably the most spectacular way to get to know Munich. But landmark hopping has one small drawback – there are fewer opportunities to leave the beaten track and immerse yourself in the life of the city beyond the hustle and bustle. This guide will encourage you to do things differently and discover Munich through four specially chosen neighbourhoods. It is these different quarters that make Munich what it is – a city that is more than the sum of its parts, lives from its endearing idiosyncrasies and exciting contrasts, is both a boomtown and a village of millions, venerable yet familiar, sometimes loud and colourful – and, of course, a bit trendy as well. Take a deep dive into each quarter and discover what makes Munich so special!

Das Kunstareal 5,000 years of art history

Munich's museums' quarter boasts a unique concentration of high-calibre museums and art galleries. And as if that weren't enough, Kunstareal is embedded in the vibrant Maxvorstadt quarter. Its universities, boutiques, spacious green spaces and historic cafés will tempt you to stroll round, stop off and enjoy life. But the main attraction is still art. With 18 museums and exhibition halls, 42 art galleries and many other cultural institutions, Kunstareal is one of Europe's most important cultural locations – and all this in less than a quarter of a square mile! Schlachthofviertel Unembellished and hip

Munich's most turbulent, wildest and, at the same time, most authentic district not only has a lively underground cultural scene, but still has a slaughterhouse with a working infrastructure of suppliers and wholesalers. As a result, this quarter has retained its rolled-up-sleeves charm to this day. But at the same time, upheaval is everywhere to be seen. With large sites repeatedly becoming vacant in recent years, this quarter is changing fast and attracting creative and young people in particular. The outcome is the city's the most colourful cultural landscape!

Overview

Other quarters

From chic to multiculti

Schwabing

Living nostalgia

The heyday of Schwabing's bohemian scene began around 1900 with artists and literary figures settling around the University and the Art Academy. They shaped the spirit of Schwabing. To this day, you can still say that „Schwabing is not a place, but a state of mind,“ as the writer Franziska zu Reventlow put it a century ago.

[Website](#)

Bahnhofsviertel

Colourful and loud

Munich's Bahnhofsviertel stands for multiculti coexistence, interesting eating places, young artists and art galleries. So it's quite different from the rest of the city. Take a round-the-world trip around the main station.

Giesing

A working-class quarter in transition

Giesing is a truly authentic neighbourhood where they avoid new-fangled things, go to the Boazn (the Munich-style pub) in the evening, and flock to the stadium on Saturdays – but to 1860, not Bayern Munich. Yet this quarter is incredibly lively and diverse – with exciting breweries and bistros, alternative cultural projects and open-air concerts.

Other quarters

Did you know?

“München” was first mentioned in a document in 1158.

Haidhausen

A village in the city

Pariser Platz, Orleansplatz, Sedanstraße, Bordeaux-Platz: you might even think you're in France when you're strolling through Haidhausen. Interestingly enough, the locals also refer to this part of the city with its captivating mix of glamorous cosmopolitan flair and village character as the “French Quarter”. Here, they know how to appreciate quality without being boastful – and are thus maybe closest to the cosy and diverse lifestyle that typifies Munich.
